## EXPERIENCE

MARCH 2024 – OCTOBER 2024

Cybersecurity Specialist | BorealOS | Castellón de la Plana

Responsibilities:

- Support in AI projects.
  - Python, Pandas, Scikit-learn
- Led migration of PHP systems using Docker.
- Development of custom specialized software and Raspberry Pi programming.
  - Git, U-Boot, Bash scripting
- SSL certificates, installation and system hardening.

OCTOBER 2023 – FEBRUARY 2024

Crypto Space & Cybersecurity | Castellón de la Plana

During this period, I combined self-study and training with some personal projects, which allowed me to explore several technologies.

- Smart contracts with Solidity.
- In-depth work with Linux distributions such as Kali and Parrot.

MARCH 2022 – OCTOBER 2023

Web Developer | Ztudio | Castellón de la Plana

Responsibilities:

- Creation of websites / web applications through the development and implementation of custom features, as well as ongoing maintenance.
  - Php, Vue.js, SQL, HTML, CSS, Bootstrap, JavaScript, Wordpress...
- Communication with clients regarding design and development, as well as evaluation and task creation for project execution.
  - AGILE methodologies, task and resource management.

## EDUCATION

Specialization Course in Cybersecurity | IES El Caminàs | October 2023 – June 2024

Course focused on the fundamentals of cybersecurity, as well as system hardening and secure production deployment.

- Securing OS, networks, applications, and other elements.
- Creation of automated pipelines with unit testing.
- Incident response protocols.

Higher National Diploma in Cross-Platform Application Development (DAM) | IES El Caminàs | October 2020 – June 2022
